

BUDONIANS INTERNATIONAL PHILANTHROPY!

"BUDONIANS 4 BUDONIANS"

Budonians International (BI) is an international elite society affiliated with King's College Budo, Kampala, Uganda. Launched in February 2002, BI set out to create an avenue for Budonians (Aspora and Diaspora) to pull intellectual and financial resources together and help each other leverage our individual talents and visions, in order to create more of what is good - both for ourselves and for others.

In its grand scheme, the BI vision will focus on 4 capital goals:

- A. *To modernize King's College Budo through philanthropy.*
- B. *To foster an upgrade in the school the curriculum* beyond the requirements of the Ministry of Education.
This would involve a calibration of the examination system against the entry exams into international institutions of higher learning. Budo would not only be synchronized with fellow outstanding secondary schools internationally but students would also have a fighting chance to compete for scholarships and financial aid at the forefront of higher learning. We believe that given the chance, Budonians could exceed the highest international standards of education.
- C. *To establish and nourish brother/sister relationships* between the King's College and fellow outstanding secondary schools internationally. This would foster free exchange of students and ideas through study abroad programs. It would engender critical connections between Budonians and prominent people internationally.
- D. *Mobilize Alumni Fundraising Drives to get these goals into orbit.*

We anticipate that this program would enable its successful benefactors to give back, creating a self-sustainable structure that finances itself. Accomplishment of these goals would set precedent, encouraging schools all over the country to follow suit.

"All this will not be finished in the first 100 days. Nor will it be finished in the first 1,000 days, nor in the lifetime of this administration, nor even perhaps in our lifetime on this planet. But let us begin." JFK

During its infancy, BI has placed campaign priority on the bolstering of the Budonians International Fund, which has been used to set up a scholarship program for deserving students at King's College Budo, primarily targeting students not in position to attend school solely due to financial disadvantage. Ruth Mulungi, who was our first benefactor, has just completed her A-Levels at Budo and these are the glimmers of hope for unprecedented change.
